

AHA ADVANCED CARDIAC LIFE SUPPORT

30th Nov & 1st Dec 2014

Subject: The AHA BLS AND ACLS (Basic Life Support and Advance Cardiac Life Support) provider course is scheduled from 29th Nov. BLS, 30th Nov to 1st Dec, ACLS at MSR Advanced Learning Center.

Course Description

The American Heart Association's ACLS Course builds on the foundation of lifesaving BLS for Healthcare Providers skills, emphasizing the importance of continuous, high-quality CPR. This instructor-led classroom course highlights the importance of team dynamics and communication, systems of care and immediate post-cardiac-arrest care. The BLS for Healthcare Provider teaches skills using the American Heart Association's proven Practice-While-Watching technique, which allows Instructors to observe students, provide feedback and guide students' acquisition of skills.

The ACLS course also covers airway management and related pharmacology. In the ACLS Course, skills are taught in large, group sessions and small, group learning and testing stations where case-based scenarios are presented. Successful course completion includes candidates demonstrating skills competency in all learning stations and passing the CPR and AED skills test, bag-mask ventilation skills test, a Megacode test and a written test. Upon successful completion, students receive an ACLS Provider card, valid for two years.

Course Covers

Key changes in advanced cardiovascular life support, reflecting the 2010 American Heart Association Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care

- Basic life support skills, including effective chest compressions, use of a bag-mask device and use of an Defibrillator
- Recognition and early management of respiratory and cardiac arrest
- Recognition and early management of peri-arrest conditions such as symptomatic bradycardia
- Airway management
- Related pharmacology
- Management of acute coronary syndromes (ACS) and stroke
- Effective communication as a member and leader of a resuscitation team

Intended Audience

Emergency medical providers such as residents, under graduates, post graduates, physicians, nurses, emergency technicians, paramedics, respiratory therapists and other professionals who may respond to a cardiovascular emergency.
