#### Dr Govind Nandakumar

MBBS, FACS, FASCRS,  
DM - Gastroenterology

**Date** - 21<sup>st</sup> - 22<sup>nd</sup> Feb, 2019

**Venue** - MS Ramaiah Advanced Learning Centre

**Duration** - 2 days

**ETHICON**

## **Overview**

Johnson and Johnson welcomes you to our Ethicon Cadaver Masterclass. This unique event will challenge the limits of Abdominal Oncosurgery, by addressing a whole spectrum of complex surgeries from D2 Gastrectomy to TME. Learn directly from experts in GI oncology, who will share their surgical knowledge and skill and discuss improving collaboration in a multidisciplinary team.

The event has been uniquely designed to combine lectures and video sessions with an extensive cadaver lab over 2 days, inviting a truly interactive teaching experience that would not have been possible in a real-life surgery.

We look forward to welcoming surgery oncology residents and practicing surgeons from around the country who would like to reach the next level of expertise by advancing their knowledge of abdominal oncosurgery.

## **Course Objectives**

Hands on skill training on

1. Lower GI procedures
2. Upper abdomen dissection and procedures
3. Staplers and Advanced energy sources

## **Who should attend**

1. Mch Gynecology residents
2. Mch / DNB surgical oncology residents
3. Practicing Oncosurgeons

## **Total number of participants - 9**

## **Kindly note**

1. Registration will close by 8<sup>th</sup> Feb

The course will start on 21<sup>st</sup> Feb at 11:00 AM and end on 22<sup>nd</sup> Feb at 06:00 PM.  
Kindly make travel plans accordingly.
