

Ethicon Cadaver Masterclass

Video Assisted Thoracoscopic Surgery

Course Faculty -

Dr Belal Bin Asaf

Consultant, Thoracic Surgery
Sir Ganga Ram Hospital, New Delhi

Date - 23rd - 24th August, 2019

Venue - MS Ramaiah Advanced Learning Centre

Duration - 2 days

ETHICON

Overview

Johnson and Johnson welcomes you to our Ethicon Cadaver Masterclass. This unique event will challenge the limits of Video Assisted Thoracoscopic Surgery, by addressing a whole spectrum of surgeries from Lobectomy to Segmental Resection. Learn directly from experts in VATS who will share their surgical knowledge and skill and discuss improving collaboration in a multidisciplinary team.

The event has been uniquely designed to combine lectures and video sessions with an extensive cadaver lab over 2 days, inviting a truly interactive teaching experience that would not have been possible in a real-life surgery.

We look forward to welcoming aspiring and practising thoracic surgeons from around the country who would like to reach the next level of expertise by advancing their knowledge and experience.

Course Objectives

Hands on skill training on

1. Lobectomy
2. Pneumonectomy
3. Segmental Resection
