MASSK

2ND IAGE-CADAVER COURSE FOR

BASIC AND ADVANCED LAPAROSCOPIC SURGICAL ANATOMY OF THE FEMALE PELVIS AND SKILLS

FACULTY

Dr. S Krishnakumar
President

Dr. P Palaskar
Gen Secretary

Dr. S Puntambekar

Dr. P H Trivedi

Dr. S Tandulwadkar

Dr. P G Paul

Dr. B Ramesh

Dr. Sanjay Patel

Dr. D Limbachia

Dr. Sandesh Kade

Dr. Vivek Salunkhe

Dr. Mala Raj

Dr. Ajit Vaze

ADDRESS :

M.S.RAMAIYA ADVANCED LEARNING CENTER, RAMAIAH UNIVERSITY OF APPLIED SCIENCES BUILDING,
GNANAGANGOTRI CAMPUS, GATE 2, NEW BEL ROAD, MSR NAGAR, BANGALORE-560054

MASSK

2ND IAGE-CADAVER COURSE

FOR

**BASIC AND ADVANCED LAPAROSCOPIC SURGICAL ANATOMY OF THE
FEMALE PELVIS AND SKILLS**

PROPOSED SCHEDULE AT BENGALURU

RAMAIAH ADVANCED LEARNING CENTER, RAMAIAH UNIVERSITY OF APPLIED SCIENCES BUILDING,
GNANAGANGOTRI CAMPUS, GATE 2, NEW BEL ROAD, M.S.R NAGAR, BANGALORE-560054

DAY 1

08.30 – 08.45 am	Assemble at 1 st Floor, Ramaiah University of Applied Sciences Building, Ms Ramaiah Advanced Learning Center.
08.45 – 09.15 am	Inauguration
09.15 – 10.45 am	Learning from The Dead- The Way Ahead in Cadaver Dissection - Demonstration on Cadaver – Steps & Technique <i>Dr S Puntambekar, Chiefe Course Master</i>
Students Disburse to Their Respective Tables with The Course Tutors	
10.45 – 01.30 pm	1 ST SESSION
01.30 – 02.15 pm	LUNCH
02.15 – 05.00 pm	2 ND SESSION

DAY 2

09.00 – 01.00 pm	1 ST SESSION
01.00 – 01.45 pm	LUNCH
01.45 – 04.00 pm	2 ND SESSION
04.00 – 04.30 pm	Closing Remarks & Feedback from Students

FEB
2022**

MASSK

2ND IAGE-CADAVER COURSE

FOR

**BASIC AND ADVANCED LAPAROSCOPIC SURGICAL ANATOMY OF THE
FEMALE PELVIS AND SKILLS**

IAGE CADAVER COURSE – RALC

CADAVER DISSECTION FLOW- FOR TUTORS & STUDENTS

The cadaver dissection - with 3 candidates on 1 cadaver. Out of the 3 candidates, 2 candidates should be doing basic and advanced surgeries while the 3rd candidate will do reconstructive surgeries..

Candidate no 1 will perform para rectal & para vesical spaces along with clipping of the uterine artery on the side he/she is doing the dissection. This will be the 1st task.

2nd task would be to do lymph node dissection on the same side with visualization of external iliac artery & vein and obturator nerve.

3rd task would be to demonstrate the hypo gastric nerve on the same side along with inferior hypo gastric plexus.

The same task will be done by other candidates on the other side. The 3rd candidate can do the

- 1. Pouch of Douglas dissection.**
- 2. The bladder dissection**
- 3. Dissection of rectum in pre sacral or recto rectal space.**
- 4. The ureteric dissection up to the U-V junction**

The candidate no 1 and candidate no 2 can finish the hysterectomy on their respective side. The candidate no 3 can do laparoscopic vaginal suturing & pre vesical space dissection with Burch repair.

If time permits, then Ureteric reimplantation and stapler firing with rectal resection can also be done. The entire process will probably take one and a half day. If time permits interested candidate can go for para aortic dissection

OR

- Amongst 3 one who is less experienced may do the Hysterectomy, suturing of vault and retroperitoneum for ureter and uterine artery the other 2 go for pelvic spaces, nodes and reconstructive surgeries. The tables colleagues have the liberty to work out amongst themselves with the consent of the table expert the steps they would want to practice.

Dr S Puntambekar would demonstrate the sciatic nerve & superior hypo gastric nerve.
