PELVI - ACETABULAR TRAUMA WORKSHOP Basic Course

July 5,6,7 - 2019

**KMC
Accredited**

**Venue :
Ramaiah Advanced Learning Center**

Surgical treatment of acetabular fractures requires a prolonged and very steep learning curve. Both the experience of the surgeon and the approach to the treatment of the fracture have significant effect on the clinical outcome. Patient may get the best of his ability or may suffer complications.

There have been several national and international theoretical and practical training courses that have been organized to increase the success rate of surgical treatment of acetabular fractures. But as these are restricted mostly to one day or maximum two days courses, many basic learning points are too compressed to be understood well.

As pelvi-acetabulum fractures need a level of confidence in management, the course must teach in a way to generate confidence in the mind of surgeon, so that he feels enabled to go on the path of learning management of these injuries. This has been the aim of this pelvic course in Ramaiah Learning centre, where we spend enough time on each aspect of learning.

As this year it will be a Basic course, our emphasis is on understanding these fractures from the radiography, drawing lines on pelvic models and defining strategies of fracture management. There will be bone model exercises for simulating the principles of pelvi-acetabular fracture fixations. Surgical video will be shown for all types of basic surgeries to simulate real OT situation.

There will be adequate number of cadavers for surgical dissection (not more than 4 participant per table, two on either side). This level of experience will enable each participant to understand the "Depth" of surgical approach fully.

We are getting some of the top faculty from different part of the world who are very regular in teaching AO courses in Davos. They will be supported by the best faculty from all over the country who have been contributing for many years with the passion of teaching and training.

The course is being conducted in the only proper cadaveric lab in the country. We are happy to state that AO Trauma (India) has helped us this time in conducting this course by adequate financial support.

This will be a Basic course and is planned for surgeons who are interested in pelvic acetabular surgery and want to upgrade their skills from routine trauma care.

Dr Ramesh Sen
Course Director

Day 1 - July 5, 2019

9 - 9.15 am	Inauguration Address
9.15 - 9.30 am	Lectures on Pelvic Anatomy, Radiological Anatomy, Pelvic injuries classification and early management
9.30 - 10 am	Practical Exercises on Radiological Images
10 - 11am	Exercices on pelvic binder, and excercises on saw bone models
	TEA
11.30 -12.30 pm	Lectures on surgical stabilization of the injured pelvisanterior fixation, anterior sacroliliac, posterior transiliac stabilization
12-30 - 1 pm	CASE DISCUSSION on pelvic trauma in small groups
	LUNCH
2 - 2.45 pm	Practical Exercices on saw bone models
2.45 - 3.30 pm	Video for Surgical Approaches to pelvis Symphyseal stabilization, sacroiliac stabilization, Posterior transiliac plate fixation , ileosacral screw fixation
	TEA
3.45 - 5 pm	Cadaveric Exercices for symphysyeal and sacroliliac stabilization
5 - 5.30 pm	Lectures complications in pelvic trauma fixations, VTE, open pelvic injuries
5.30 - 6.15 pm	Case Discussion on pelvic fixation in small groups Kocher and langenbeck Approach Ganz flip osteotomy and surgical dislocation of Hip

Day 2 - July 6, 2019

9 - 9.40 am	Lectures on Surgical anatomy acetabulum, radiology, normal and post injury. Classification of acetabulum trauma
9.40 - 10-15 am	Practical Paper Exercices on acetabulum injury pattern
10 am -10.30	Lectures on Posterior wall and posterior column injuries
	TEA

10.45 - 11.30 am	Practical Exercises on saw bone models on posterior column and posterior wall injury
11.30 - 12 noon	Lectures on Transverse , T type fractures , anterior column with posterior hemitransverse fractures
12 - 1 pm	Case Discussion
	LUNCH
2.00 - 4.30 pm	Cadaveric Exercises Surgical approaches K L approach, ilioinguinal, iliofemoral and stoppa approaches
4.30 - 6.30 pm	Practical Exercises on saw bone
	TEA

Day 3 - July 7, 2019

8.30 - 9.30 am	Learnig from Failures lessons learnt by masters
9.30 - 10 am	Best Case Presentation by delegates for AWARD
10 - 10.30 am	Lectures on THR in acetabulum fractures, Femur head fractures Morrel lavalles lesion
10.30 - 11.00 pm	Lectures on Associated both column fractures, geriatric acetabulum fractures, Neglected acetabulum fractures.
	TEA
11.30 - 12.15 pm	Practical Exercises on saw bone models for ABC fracture
12.15 - 1.00 pm	Case Discussion
1.00 - 2.15 pm	Live Surgery / Surgical Video
	LUNCH
3.00 pm	Valedictory Function distribution of best presentation award and participation certificates

Course Directors :

Dr. Ramesh Kumar Sen

Dr. Naresh Shetty

International Faculty

Dr Adrien Roa Zoppi
Venezuela

Dr Jorge Daniel Barla
Argentina

National Faculty

Dr John Mukhopadhyaya
Patna

Prof Vivek Trikha
AIIMS New Delhi

Prof Sameer Agarwal
PGIMER Chandigarh

Prof P K Raju
