PLEXUS REVISITED

Brachial Plexus Workshop
under the aegis of
Brachial plexus group of India

August 14th & 15th, 2020

Venue : Ramaiah Advanced Learning Center
Bengaluru, India

Techniques in brachial plexus surgery has evolved over time and many young surgeons are showing interest in this field.

Although recovery of shoulder and elbow function after brachial plexus surgery is common, a lot of newer surgical techniques are evolving for recovery of hand function.

A great opportunity to learn from the stalwarts. A workshop for novice as well as for the experienced.

Faculty demo and hands on dissections of the following procedures will be included

- Brachial plexus exposure, supraclavicular and infraclavicular approaches
- Vascularized ulnar nerve grafting from Contralateral C 7
- Multiple nerve transfers like Spinal accessory to Suprascapular, Oberlins 1 and 2, Intercostal to musculocutaneous and axillary nerves, Somsachs procedure and many other distal nerve transfers.
- Wang's Procedure
- Free functional muscle transfers
- Secondary procedures

There will a special session for case discussions after the dissections on both days

Interesting session on faculty talks and take home messages

Highlights

- Top notch faculty
- Best cadaver lab
- Crisp faculty talks
- Interesting case discussions and case scenarios
- KMC Accredited
