Post Graduate Teaching Program 2018

March 10 & 11, 2018

Organized by :
Dept. of Orthopaedics
Ramaiah Medical College,
Bangalore

Under aegis of
KOA, BOS and OASIS

Venue:
Ramaiah Advanced Learning Centre

Introduction

There has been a revolution in postgraduate teaching since the inception of teaching initiatives under the aegis of Indian orthopaedic association. The primary objective of this program is to ensure standardized training for the post graduate students and to sustain uniformity with high quality education among students. Postgraduate teaching program at M S Ramaiah medical college is much awaited annual event for all post graduates who are appearing for the exams.

This program provides an ample opportunity for the students to measure the depth of their preparedness for exams, discuss and resolve any existing controversies in clinical examination with highly efficient and distinguished teachers.

This is tailor made to meet the exam going postgraduate student's expectations. Interpretation of different imaging system has become a very valuable tool in the diagnosis of a case. Special emphasis has been placed to ensure the post graduates get enough exposure of various imaging modalities. This year's program concentrates on practical skills, case discussion and important aspects of bedside clinics and Viva.

Organizing Chairman

Dr Naresh Shetty
