First Cadaveric Wrist Workshop

March 3rd, 2013
Sunday

Under the aegis of BOS & KOA

Program at a glance

Wrist is a complex joint with intricate anatomy. With increasing demands of the wrist as a important functional and economical unit of the body, problems of the wrist are evolving. Gone are the days when Trigger injection is given in every other painful joint.

The course is designed to address the problems of the wrist and ways to approach them. Minimal invasive surgery and wrist scopy is also included. It is a great opportunity to learn from the masters. After the course - the delegates should have understood

- Newer concepts of distal radius, Scaphoid fractures and DRUJ
- Confident about exposures to wrist, DRUJ, TFCC and Scaphoid
- Get an insight into Wrist Scopy"

Dr Bharath K Kadadi
Course coordinator
